Secured by Design

Official Police Security Initiative

Series 3 BiSecur Operators

For Secured by Design accredited installation only Hörmann ProMatic or SupraMatic Series 3 BiSecur operators can be used.

Automatic Door Locking

The door automatically locks on closing, making it impossible to lever it open. This unique automatic latching system is a mechanical device and therefore remains fully functional even in the event of a power failure.

Tested and Certified

Successfully tested by TUV Nord against "Break-in resistant guidelines for garage doors 11.2007". Certificate numbers 447990835482-002/003/004 refer respectively.
